

## Multi-Function Jump Starter & Mobile Power Supply | 5-in-1 | 18 Ah

Product number: 3383

Weight: 9.458 kg

EAN: 4026947033839

- portable power station with 18 Ah capacity
- heavy-duty, robust and reinforced plastic housing construction
- for charging important devices independently of each other and always remain ready for use
- heavy duty plastic handle - with a generous recess for easy transport
- with protective circuit and automatic fuse
- on / off switch
- charging level indicator
- holder for jump start cables / clamps

- combines 5 functions in one compact device
  - multifunction jump starter with start-up cable and insulated clamps
  - compressor including adapters for inflating tires, balls, bicycle tires, etc.
  - powerbank function for charging smartphones, tablets, etc.
  - mobile power supply 220 V
  - integrated LED light
- emergency jump start device on vehicles with a 12 volt electrical system (max. 1250 A)
- power supply for 2 devices with vehicle electrical system plug (12 V / 10 A)
- power supply for 2 devices with USB-A connector (5 V / 2 A)
- power supply for 2 devices with 220 V socket
- with built-in bright LED lamp
- battery capacity: 18 Ah
- peak current with jump start: 1250 A
- LED lamp: 2.5 W
- USB output: 5 V / 2 A (2 sockets)
- 12 V output: 10 A (max. 15 A) (2 sockets)
- 220 volt inverter
- continuous power: max. 400 W (peak: 800 W) (2 sockets)
- air compressor: max. 10.3 bar (150 psi)
- charging temperature: 0 - 40 °C

**scope of delivery:**

- 1 jump start device
- 1 start-up cable with clamps
- 1 tire inflation hose
- 3 filling adapters
- 2 spare fuses
- 1 charger
