

## Portable Air Compressor

Product number: 3386

Weight: 6.818 kg

EAN: 4026947033860

- the ideal home solution not only for car tires, but also for motorcycles or bicycles, balls, air beds and much more.
- even large-volume inflatable items such as air beds and mattresses or inflatable pools can be filled quickly, easily and with high pressure with this compressor
- light and robust case construction - perfect for mobile use as well as space-saving storage
- oil- and service-free operation
- powerful electric motor for fast pressure build-up
- 9-piece adapter set for all common valves included in the scope of delivery
- accessories can be conveniently stored in a separate compartment
- wide operating radius due to rubberized (PVC) connection cable with 3 meter length
- space-saving storage options for compressed air hose, power cord and accessories directly in the housing
- power supply: 230 V 50 Hz
- compressed speed: 3550 U/min

- theoretical suction power: 180 l/min
- protection category: II

**scope of delivery:**

- 9 adaptors and nozzles
- 1 air gun with pressure gauge up to 12 bar (analog), with quick release lever for use as tire inflator gun
- 1 compressed air hose (3 m) with air quick coupler
