

Brake Fluid Tester | Boiling Point Measuring System

Product number: 6905

Weight: 1.408 kg

EAN: 4026947069050

- for measuring the boiling point of brake fluids
- boiling point temperature is used to accurately determine the amount of water in brake fluids
- also suitable for measuring the temperature of other liquids when using a thermocouple
- suitable for cars, motorcycles and pickup trucks with brake fluids DOT 3, DOT 4, DOT 4 PLUS or DOT 5.1
- power: 12 V automotive battery
- testing current: 5 - 7 A
- working environment: 0 - 50 °C
- boiling point measuring range: ≤ 320 °C (≤ 608 °F)
- boiling point measuring accuracy: $\pm 5\%$
- temperature measuring range: -60 °C to 500 °C (-76 °F to 932 °F)
- temperature accuracy: -20 to 500 °C $\pm (1\%+3\text{digits})$
