

## Battery Acid Tester Hydrovolt

Product number: 9671

Weight: 0.158 kg

EAN: 4026947096711

- robust and break-proof type
- for checking acid density and charge condition of rechargeable batteries
- for direct reading
- extra low total height for measuring without any difficulty in small areas
- measuring scale with colored sectors
- easy filling of measuring chamber without air bubbles
- hydrostatic reverse lock
