

Fan Heater | electric | 2 kW

Product number: 73370

Weight: 1.745 kg

EAN: 4048769082284

- portable heat source for heating spaces such as garages, apartments and stores
- ceramic heating element and powerful air flow provide fast heating over long distances with low noise level
- easy to transport and quickly stored due to its light weight and compact dimensions
- temperature limitation with automatic reset and overheating protection
- 2 heating levels (1000 / 2000 W) and fan operation
- clear control panel with adjustable thermostat
- stable stand
- swiveling heating element
- powder coated housing
- power supply: 220 - 240 V AC 50 Hz
- plug type: CE7/7
- nominal heating power: 2000 W

- heating power steps: 1000 / 2000 W
- heater type: PTC ceramic
- air flow volume: 190 m³/h
- protection class: IP20
- recommended usable area: 10 - 20 m²
- angle adjustment: 15 - 25°
- cable length: 1.5 m
- thermostat: mechanical
